## EDUCATION

VIT Bhopal University, Bhopal, Madhya Pradesh Sep'2021 - Onwards  
Bachelor of Technology in Computer Science and Engineering (Health Informatics) CGPA: 8.91/10

## TECHNICAL SKILLS

Java, HTML, CSS, SQL (MySQL)

**Certifications:** HTML, CSS & Javascript for web developers Coursera

## PROJECTS

**Future Farming Analytics System** Jan'2024 – Apr'2024  
Frontend Developer | HTML/CSS, PHP, Machine Learning, MySQL

- Developed a comprehensive website tailored for farmers, integrating advanced analytics to predict crop yields with greater accuracy.
- This platform helps farmers work more efficiently and earn more by making it easier to sell their produce directly and hire laborers, improving their income, simplifying tasks, and increasing productivity.
- Integrated technologies such as HTML/CSS, PHP, XAMPP, Machine Learning and MySQL to build an intuitive and powerful platform
- Collaborated in a team of 5 members, serving as the Front-end Developer, and focused on improving user experience and interface design.

**Smart Health Connectivity System** Jul'2022 – Oct'2022  
Frontend Developer | HTML/CSS, JavaScript, MySQL

- Developed an innovative software solution that allows patients to directly contact doctors during emergencies, ensuring quick and timely access to critical medical assistance.
- This system improves response efficiency and reduces critical response times by enabling instant communication between patients and healthcare providers, enhancing emergency care outcomes.
- Utilized HTML, CSS, JavaScript and MySQL to create an intuitive and efficient interface for users.
- Collaborated with a team of 3 members as the Front-End Developer, responsible for creating user-friendly designs and improving the overall experience.

## EXPERIENCE

**Smart Intern** | Remote Aug'2023 – Nov'2023  
Android Application Developer Intern

- Completed an Android Development course at Smart Internz, acquiring comprehensive expertise in both front-end back-end development.
- Proficient in and developing scalable and responsive applications using the latest technologies.
- Skilled in creating responsive user interfaces and integrating advanced technologies to enhance application functionality.

## RELEVANT COURSWORK

Object Oriented Programming, Database & Management Systems, Operating Systems and Data Structures & Algorithms.

## ACHIEVEMENTS

- Awarded with 100% scholarship to pursue B. Tech under the “STARS SCHEME”.
- Attained a 5-star rating in both Java and SQL on HackerRank.
- Solved 500+ problems on GeeksforGeeks (GEG) and 350+ problems on LeetCode
- Achieved 1st rank in district Dhar for both 12th and 10th exams.
